

ABOUT US

Barcelona is an independent group of companies with more than 75 years of experience, committed to providing its customers, suppliers and partners with sustainable value in ingredients for Life Sciences and in the global business of Industrial Chemical Products.

The selection of **products and services** that we offer is designed to provide your business with maximum value.

BASIC ORGANIC AND INORGANIC COMMODITIES
SPECIALTIES FOR YOUR SECTOR OF ACTIVITY
BARCELONESA FORMULATIONS
CUSTOM-FORMULATED PRODUCTS FOR YOUR COMPANY
ENVIRONMENTAL SERVICES (water, air, disinfection, by-products and waste)
LOGISTICS SERVICES

Targeting a wide variety of markets:

Agrochemistry	Paints, Lacquers and Varnishes
Animal Feed	Composites
Human Food	Construction
Oenology	Lubricants
Environment	Plastic and Rubber
Water Treatment	Fine Chemicals and Pharma
Cosmetics and Personal Care	Biofuels
Detergency	Power Generation Plants
Surface Treatment	Drilling and Mining
Polished Aluminium	Polyurethanes
Cardboard and Paper	Textile and Tanning/Flock Production
Ceramics and Glass	

Specific lists available for each market*

Our technical area consists of a team of highly qualified professionals who work from our own laboratory to develop new products and formulations, with the aim of providing the best solution for our customers' needs.

Our certifications and accreditations guarantee we carry out all of our activities with the highest quality, safety, environmental and health standards.

ORGANIC & INORGANIC COMMODITIES

We offer basic chemical products from carefully-chosen manufacturers anywhere in the world, which we keep in stock in order to deliver them to you at the agreed on time.

SPECIALTIES & FORMULATIONS

Our specialties are adapted to your sector of activity and come from represented brands whose value lies in the technical consulting that is required for their application, with the aim of providing solutions that are increasingly innovative, safe and environmentally-friendly.

Our formulations are solutions developed by the R&D team, adapted to the individual needs of each client.

Barcelonesa has the necessary infrastructure to carry out this activity with maximum guarantees, which include the design phase, laboratory tests, pilot tests and industrial scaling.

The advantages we can offer with this option are:

- Reduced labour and environmental safety risks
- Reduced fixed costs in plant
- Reduced environmental costs (elimination of empty containers)
- Reduced investment needs in working capital and CAPEX
- General optimisation of your production process

ENVIRONMENTAL SERVICES

Waste management

We provide you with significant cost savings in the process of reducing your waste, which we value and reuse in other industrial processes.

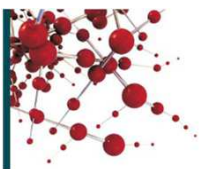

Water treatment

We put our capacity and technical consulting at your disposal to help you decide on the most appropriate solution, in order to ensure the sustainable management of this resource.

LOGISTICS SERVICE

At Barcelonesa, we try to provide the right combination of product and packaging that adapts perfectly to your needs.

- Bulk supply
- Standard packaging
- Custom packaging
- Sale of packaging
